Idle Point

double **lon**
double **lat**
double **distance**
double **velo**
long **utc**
boolean **isIdle**

TripDelivery

Long **id** (PK)
String **tmJson**

TripReport

String **token** (PK)
String **jsonz**
String **geojsonz**

DataPontMeta

String **LastLatLon**
Boolean **autoStarted**
ArrayList<String>**RecNotes**
ArrayList<String> **StartLogs**
ArrayList<String> **EndLogs**
ArrayList<String> **TripLogs**
ArrayMap<String, String> **KV**

ClientOutput

GeoLayerGroup **glg**
String **tripToken**
ClientReport **clientReport**

TripSummary

String **startDate**
String **distance**
String **startTime**
String **endTime**
String **startLoc**
String **endLoc**
String **title**
String **startReason**
String **stopReason**
String **wheatherConditions**
boolean **isNoTripCard**
boolean **isghostedTrip**
boolean **isNight**
FeatureCollection **fc**
String **tripToken**
String **issueMessage**
long **ghostedTripId**
Integer **ghostedTripStatus**

ClientReport

String **tripToken**
ArrayMap<String, Integer> **IntProps**
ArrayMap<String, String> **StringProps**
List<String> **Suburbs**
List<String> **RoadTypes**
